NETWORK ADMINISTRATOR INTERN

RTBF | Bruxelles

Working on a large-scale production infrastructure used by major media in Belgium. Gaining hands-on experience in network automation with Ansible, NETCONF, and GitLab, while managing Cisco-based environments through CLI. This internship provides valuable insights into enterprise network administration and the future of automation.

MOBILE FULL STACK DEVELOPER

Diabhealth | Wavre

I contributed to the development and enhancement of their innovative mobile application designed for diabetes management. As a mobile developer, I redesigned the user interface, improved user experience, and integrated new features.

EDUCATION

Sep 2024
Dec 2024

CISCO NETWORK ENGINEER BOOTCAMP

BeCode | Bruxelles

Provided the training and hands-on experience that helped me to earn my CCNA certification

Sep 2021
Jun 2024

BACHELOR IN INFORMATION TECHNOLOGY

Ephec | Louvain-la-Neuve

Grade: Distinction

During this 3-year program, I gained strong skills in programming, networking, IT security, electronics, and virtualization. The hands-on approach of the curriculum allowed me to work on real-world projects, fostering my critical thinking and problem-solving abilities.

CERTIFICATES

Cisco Certified Network Associate (CCNA)

Cisco | Issued: Jan 2024 | Credential ID: CSC014811688

OBJECTIVE

I am a Computer Science graduate with a solid foundation in IT acquired during my studies at **EPHEC**, and I am proud to hold the **CCNA** certification from Cisco. Specializing in networking, I am developing expertise in network administration and automation to build secure and efficient infrastructures.

I am actively seeking opportunities in network engineering or IT infrastructure where I can apply my knowledge, grow my expertise, and contribute to innovative projects.

SKILLS

- Network Security, Design & Troubleshooting
- Network Automation & Administration
- Linux & Windows Administration
- Docker & Kubernetes Basics
- VMware & Virtualization
- Python & Bash Scripting
- Problem Solving & Troubleshooting
- Team Collaboration
